What Is A Pager?

A pager (beeper) is a one way pocket telephone, keeping you in touch wherever you are. Today's pagers allow you to actually hear a voice message from someone who wants to contact you.

Who Needs A Pager?

Who doesn't? Everyone wants more freedom in their daily activities. If you're in the business world, a pager frees you to be on the move, yet be instantly available. Pagers don't cost — they save money by conserving time and gas. You'll be surprised how saving a few minutes a day will pay for your pager. Or how

one quick response will get an order, help a client, or avert a disaster. As parents a pager allows you to enjoy the spur-of-the moment unplanned evening and not be out of touch with your family. For everybody on the go, a pager is truly the sound of freedom.

Millions Already Know.

Pagers are carried by literally millions of people, and in some cities waiting lists for new customers are common. What do these people know that you don't? Whether it's your wife calling you to pick up some milk, or a client cancelling an appointment while

TELECOM

you are en route in the car, you will find your pager one of the most exciting and useful products in the world today!

Don't Leave Without It.

When someone wants to reach you, they call your pager telephone number and relay the message. This can be done completely automatically or by using our operator. The call activates your pager, causing it to beep. *You then hear the spoken message!* The volume of the pager can also be controlled. All this from a device smaller than a pack of cigarettes.

Room To Move Around.

The Telecom network that allows your pager to work anywhere in the Lower Mainland represents the finest broadcast technology available. *It will reach you in places other pagers don't work (like underground parking lots and elevators) with the clearest message in the business.*

Same Day Service

Service with all other pagers means you must travel to the paging company for repairs. *At Telecom we come to you, so same day service is only a phone call away.* And if it needs to be replaced we'll give you a new

pager on the spot — without the inconvenience of changing your pager code number. All at no cost to you.

Most Choose Telecom.

Nobody provides pagers cheaper than we do. A bold statement, but true. *In fact, the competition's rates average 48% higher than ours.* Value, quality, personal service; you get it all from Canada's number one paging system — Telecom.

What Telecom Costs.

Voice pagers are \$24.99 per month. Each pager comes complete with battery, a charger, and is delivered to you at no charge.

You'll Get the Message.

It's this simple. Canada's number one paging service wants your business. Call now for a no cost, no pressure demonstration. You'll see, Telecom pagers speak for themselves.

We've Got Your Number

The problem with most answering services, is that they sound like answering services. When you're ready for honest-to-goodness personal service (24 hours if you need it). We've Got Your Number.

When you choose to lease your pager annually, we'll give you the amazing Polaroid One-Step camera absolutely free. But hurry, this offer is limited while supplies last (limit of one camera per person, group, or organization).
